AND HEALING  
TO ALL PEOPLE  
THROUGH TRUSTING  
RELATIONSHIPS

**AtlantiCare**

IS MAKING  
A DIFFERENCE

*Building healthier communities...  
our starfish stories*

Dear Neighbor,

The AtlantiCare family – our staff, volunteers, physicians and trustees – is passionate about our vision of building healthy communities. We believe that each member of our staff contributes to this vision by making a difference one person at a time. In this report to the community, you can read about some AtlantiCare staff who have done just that – we call them our “starfish stories.”

You will also read about the many other ways in which we reach out to partner with our community, from our Healthy Schools, Healthy Children program and our Special Care Center to our Breast Health Signature Event and Heart Walk. In total, we have touched more than 895,000 lives over the last three years – from inpatient visits to community events. Additionally, many members of our staff give countless volunteer hours to other community organizations whose missions are similar to ours – enriching and enhancing the quality of life in our region. We also employ more than 5,000 people in this region – second only to the casinos. In these ways, we contribute directly and indirectly to the vitality of our community.

During this time of economic uncertainty, we are all concerned about the vital services this community needs to thrive and grow. You can count on AtlantiCare to be here for you and your family even during the most difficult times to provide access to high quality health and wellness services. This Community Benefit Report highlights many of those efforts to serve you. The entire AtlantiCare family thanks you for trusting us to be your provider and partner in health and looks forward to taking you well into the future.

In good health,

A handwritten signature in black ink that reads "David Tilton". The signature is written in a cursive, flowing style.

David Tilton

## THE STAR THROWER

*paraphrased from  
the writings of Loren Eiseley*

A man was walking along the beach one morning after a storm. Thousands of starfish had been washed ashore. The man noticed a boy in the distance, picking up starfish one by one and gently throwing them back into the ocean. Approaching the boy he asked, “What are you doing?”

The boy answered, “The sun is coming up and the tide is going out. If I don’t throw the starfish back, they’ll die.”

The man replied, “There are miles and miles of beach and thousands of starfish. You can’t possibly make a difference!”

After listening politely, the boy bent down, picked up another starfish and tossed it into the surf. He smiled and said... ***“I made a difference for that one.”***

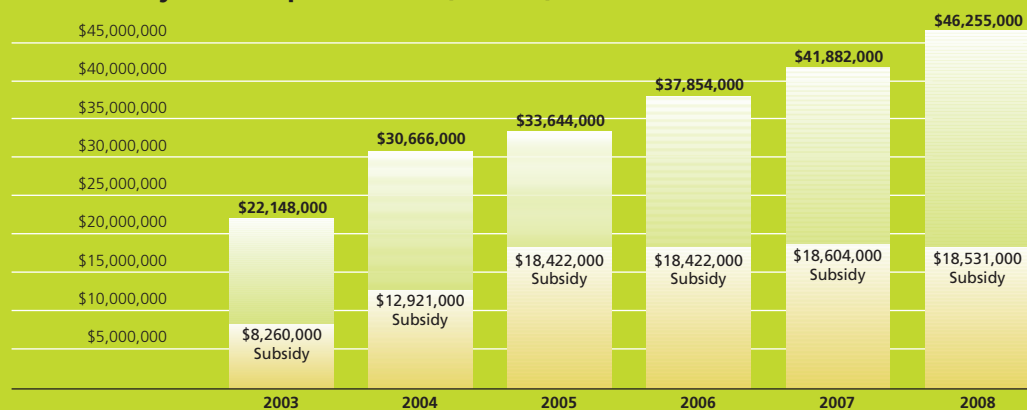

*AtlantiCare's Journey from Good to Great*

# Charity Care

AtlantiCare provides healthcare services to everyone regardless of their ability to pay. AtlantiCare is proud to be a “safety net” hospital, providing more than \$46 million in charity care in 2008 (see the graph below).

AtlantiCare currently employs nearly 5,000 full and part-time individuals, making us the largest non-casino employer in southeastern New Jersey. This employment provides \$348 million in salary and benefits to our employees. Total AtlantiCare base expenditures are \$624 million. As this amount “ripples” through the economy it creates approximately \$1.5 billion in total economic value to New Jersey.

**Charity Care Expenditures (at cost)**

# National Recognition

## Community Outreach Award

The New Jersey Hospital Association presented AtlantiCare with its Community Outreach award for reducing healthcare disparities. The award recognizes the contributions of AtlantiCare's Mission Health Care, a healthcare program it provides the homeless at the Atlantic City Rescue Mission in Atlantic City, New Jersey.

AtlantiCare's Mission Health Care is one of 20 Federally Qualified Health Centers (FQHCs) in the state and one of only five that serve the homeless. The program is funded in part by a \$600,000 federal grant from the Health Resources and Services Administration - Bureau of Primary Health Care. Since opening in October 2003, Mission Health Care has provided care to more than 12,000 patients through 98,000 patient visits.

## ARMC is Top Among NJ Hospitals

The 2006 New Jersey Hospital Report Card shows AtlantiCare Regional Medical Center (ARMC) is top among hospitals in the care of heart attack and pneumonia patients and number one in the care of patients with congestive heart failure.

ARMC achieved the best overall composite performance across indicators for treatment of heart attack, pneumonia and congestive heart failure in the southern region of New Jersey, as well as compared to virtually every other hospital in the state. The southern region includes Atlantic, Burlington, Camden, Cape May, Gloucester and Salem counties.

*My heart received the region's best care - AtlantiCare.*

### **AtlantiCare Regional Medical Center Earns National Recognition for Nursing Excellence - Again**

The American Nurses Credentialing Center's (ANCC) Magnet Recognition Program® for excellence in nursing services again designated AtlantiCare Regional Medical Center as a Magnet hospital in October 2008. ARMC became the 105th hospital in the nation to attain status as a Magnet™ designated hospital in March of 2004.

### **National Recognition for Organ Donation**

ARMC Mainland and Atlantic City campuses have received the Department of Health and Human Services (DHHS) Medal of Honor for outstanding rates of organ donation. The medal honors ARMC staff for demonstrating exemplary leadership and commitment to patients and families and to donation and transplantation. ARMC is one of 20 hospitals in the tri-state area to receive the medal. ARMC has been part of the National Organ Breakthrough Collaborative, which the Institute for Healthcare Improvement (IHI) and DHHS began in 2003.

### **ARMC Seventh in Nation for Care of Heart Attack, Congestive Heart Failure, Pneumonia**

ARMC ranked seventh among the nation's hospitals\* in 2006 for providing quality care for heart attack, congestive heart failure and pneumonia. The New Jersey Department of Health and Senior Services announced that ARMC was among the top hospitals in the nation, and that New Jersey ranks first nationwide in delivering high-quality hospital care.

\* Results are based on a New Jersey Department of Health and Senior Services analysis of data in Hospital Compare, the hospital-performance web site the Centers for Medicare and Medicaid Services (CMS) and the Hospital Quality Alliance (HQA) created. Over 3500 hospitals' CMS data were included in the study.

**AtlantiCare HomeCare was Named One of the Top 100 out of 2,600 Agencies Nationwide**

### **Partnering with Fox Chase Cancer Center in Philadelphia**

ARMC was named a Fox Chase Cancer Center Partner, allowing ARMC to affiliate with one of the nation's leading cancer centers. As a Fox Chase Partner, ARMC joined an elite network of 28 community hospitals in Pennsylvania, New Jersey and Delaware working cooperatively with Fox Chase Cancer Center to expand access to clinical trials and provide the most advanced options for cancer prevention, diagnosis and treatment. The program is known as AtlantiCare's Cancer Care Institute, a Fox Chase Cancer Center Partner, to reflect its focus on cancer care and research. It includes the RNS Regional Cancer Center at ARMC.

### **Horizon Blue Cross Blue Shield Award**

ARMC was presented with a \$99,250 award by Horizon Blue Cross Blue Shield of New Jersey which recognizes physicians, nurses, staff, and administration for their commitment to providing high quality care in a safe environment for patients. ARMC has reinvested the award in developing new, and enhancing existing patient safety initiatives.

The final patient floors of the George F. Lynn Harmony Pavilion, part of AtlantiCare Regional Medical Center Atlantic City Campus's \$128 million expansion, are complete. The opening of the sixth floor, a telemetry unit, and seventh floor, a medical unit, complete the seven-story patient tower – the largest expansion in the 110-year history of the hospital.

The telemetry unit is for patients who need specialized heart monitoring. This area is the site of ARMC's Joint Commission Accredited Stroke Unit. ARMC's Telemetry Team includes physicians, nurses, patient care associates, and monitoring technicians who continuously review and evaluate patients' heart rhythms. The medical floor is for patients with a variety of needs.

The George F. Lynn Harmony Pavilion has all private patient rooms, decentralized nursing stations, wireless technology, natural light, family space, healing artwork and other details that contribute to privacy, comfort and quality care. AtlantiCare broke ground on the 198 thousand square-foot expansion September 7, 2005. Phase I was completed in May 2007 with the opening of a new rooftop trauma helipad and stabilization treatment area. The new Emergency Center is more than double the size of the original (along with the Harrah's Regional Trauma Center, which opened in October 2007).

The Emergency Center (EC) is designed to handle more than 60,000 annual patient visits. The EC includes consultation space; separate waiting rooms for adults, children and behavioral health patients; and specialized and comprehensive

# Atlantic City Campus Expansion

emergency care areas for children, women's health, trauma and critical care, behavioral health, fast track and general emergency care.

The expansion also includes a new Radiology Department on the second floor with separate inpatient and outpatient suites and a new pedestrian walkway from the Caesar's Atlantic City garage to the George F. Lynn Harmony Pavilion. The third floor includes a new Intensive Care unit (ICU) with 26 private rooms, consultation space and three separate waiting areas. Floors four through seven are new medical surgical units. Each floor has telemetry capabilities and 30 private inpatient suites for a total of 120 private rooms.

In addition to the expansion, ARMC also renovated 23,000 square feet of the original building. Part of this renovation included the new Stanley M. Grossman Pediatric Center, a twelve-bed facility with private rooms, child-friendly artwork, a beach-themed Ronald McDonald room, family space and a playroom.

Also, part of the renovation is the new behavioral health unit in ARMC's Emergency Center. The unit has eleven emergency and extended-crisis stabilization beds – all of which are in separate rooms, and a private consultation room where family members can meet with physicians and other members of the care team.

### **Evidence-based design**

ARMC and architects Granary Associates used evidence-based design to ensure that the building allows for the highest level of safety, clinical care and comfort for patients, families and staff. All patient suites in the George F. Lynn Harmony Pavilion are private and have windows to allow

natural light into the rooms. Patient rooms are designed for environmental comfort allowing patients to control temperature, lighting and sound on their own.

AtlantiCare has incorporated artwork into the care environment based on research that shows the arts contribute to the healing process. Work from more than 60 artists from New Jersey and the Philadelphia, Pennsylvania region is in each lobby, patient suite, waiting area, nursing station, meeting room and corridor. The nearly 500 pieces of art are part of AtlantiCare's commitment to designating one percent of all building costs to the arts.

### **Technology**

The new George F. Lynn Harmony Pavilion features the latest advancements in medical technology and equipment. Among the highlights are: digital mammography, medical gas booms, 64-slice computed tomography (CT) scanner, integrated monitoring system and voice-activated staff communication.

A fully-integrated patient monitoring system allows physicians to access patient information from any computer. The clinical staff uses hands-free, voice-activated communication devices.

### **Community involvement**

Members of the community played a vital role in the expansion project. Many have served on one of three committees: the Healing Arts, Project Oversight and Community Advisory committees. Each group contributed to decisions about the design of patient and public areas and the enhancement of ARMC services.

AtlantiCare Regional Medical Center  
has completed the largest expansion  
in our 110-year history.

# Starfish Stories

*To make a difference is one of life's greatest rewards...*

A few months ago we received a referral for our therapeutic foster care program for a 14 year old young man that had been in our program twice before. This young man has a very sad history of multiple failed adoptions, severe abuse and no personal connections or trust with anyone. The only exception to this is one of our foster parents, Mrs. B. Unfortunately we could not place him with Mrs. B for reasons beyond our control. So, on the day of placement, the young man did the only thing he knew how to do – run. Over a period of three hours his care manager and I followed him up to Rt. 322, in the rain, trying to convince him to come back and give it a try. He continued to refuse into the night and by 8 pm the only option was for the young man to go into the shelter. He said to me at one point, “don't you understand, Mrs. B is the closest thing to family that I have?” Over the next week the Family Care Network staff, DYFS and CMO worked diligently to make it work and we were able to place him into Mrs. B's home within a week. It is now almost a year later and the young man could not be doing better. He regularly gets honor roll in school and just recently was able to return to regular school from an alternative school. The smile that I see on his face every time I see him now, and hearing him say that he is proud of himself, makes those three hours spent in the rain and the cold all worth it.

One of our case managers told me that she had a patient with four small children and no gifts for them for Christmas. I asked our administrative assistant if she could send out an email to our staff as well as the rest of our friends at the HealthPlex, asking for help. She did, and gifts starting arriving immediately. The next day (Christmas eve) a few of our staff members delivered a carload of gifts and snacks to the children who referred to them as “Santa's elves.” Everyone at the HealthPlex who donated gifts, money, or time made a difference to this family that they will never forget.

A woman came up to me at a local mall and asked to give me a hug, then proceeded to tell me that when I had treated her son 9 years ago, when he was first diagnosed with schizophrenia, she was very frightened as her other son already had the disease. She stated that the time I spent with the family educating them had given them hope and that her son has stayed out of the hospital since then, is working, and even has a girlfriend. It was such a nice reminder of how important our time is to others. Our jobs are often thankless, but I will never forget how good it felt to be embraced by a mother who had tears of joy in her eyes just because she got the chance to thank me. It was very humbling. I love the starfish theme because it reminds us that each of us can touch lives in very meaningful ways even when we are not aware of our impact on others.

My mom experienced chest pain, and although we live five blocks from another hospital, I chose to bring her to Atlanticare. The pains in her chest were not a big deal to her, but as a nurse I knew my mom would receive the best care at AtlantiCare and that was a big deal to me and my family. She agreed to let the diagnostic studies determine if her chest pain was a big deal. The nurses on 2 West were a breath of fresh air in a time when I couldn't breathe in fear of what lay ahead for my mother. In the end a very long story made short, My mom endured 15 hours of surgery to have a quadruple bypass, aortic valve replacement and a right sided carotid endarterectomy in the Heart Institute under the care of Doctors Axelrod, Salartash and Saia. Juanita, a PCA in the CVU, would sing to my mother among many other tasks and she always made sure her music was playing. All of the nurses had such compassion and precision that I found myself inspired to be a better nurse. The staff also recognized me and continually reminded me my role was her daughter, reassured me and wiped the tears when I felt overwhelmed. They held my hands through a very difficult time and there are no words to thank them enough.

The AtlantiCare Kids Even Start Family Literacy Program provides services to low-income and low-literacy families in Atlantic City with children from birth to 8 years old. Our program provides families with information regarding literacy, child development, health and wellness, and positive parenting practices. Our staff frequently assists families with translation of forms and interpreting, sometimes even accompanying parents to appointments at social service

agencies. In November, a parent new to our program disclosed she is visually impaired. The parents have no medical insurance and cannot afford to be treated by an optometrist. Our staff contacted the local office of the Commission for the Blind and Visually Impaired, who referred the parent to a vision screening that was to take place the very next day in Pleasantville. The parent attended the screening and recently received a voucher for a free pair of glasses! Through trusting relationships established with our Even Start families, we are so pleased something as simple as a phone call can make a world of difference! This was truly a rewarding experience for our staff and we look forward to being a part of future starfish stories!

During the last holiday season our unit 2 Meadow adopted a mother and five children. The spirit and compassion shown by our unit to this family was amazing! Four of the five children asked for bikes, and they all got one...plus helmets to go with their bikes. What a feeling to know that during this time of uncertainty everyone was so generous beyond belief to this family. I have been with this unit since 1988 and would not think of going anywhere else. We are a team as well as a family, and friends to each other. I am so proud to say that I am a member of the AtlantiCare team.

Harrah's  
Regional  
Trauma Center  
at AtlantiCare  
Regional  
Medical Center

It was no accident  
his life was saved.

**ARMC's Regional Trauma Center Renamed to Recognize Contribution by Harrah's Foundation**

With a \$1 million pledge by the Harrah's Foundation to the Special Gifts Campaign, the Regional Trauma Center at AtlantiCare Regional Medical Center (ARMC) was changed to Harrah's Regional Trauma Center at AtlantiCare Regional Medical Center. It is the largest charitable pledge the Harrah's Foundation has made in the region.

The Harrah's Regional Trauma Center celebrated its 17th anniversary in May and opened a new helipad in June 2007. It treated a record number of patients in 2008, caring for 1,537 patients, the most in its 17 years of service to the community.

The Trauma Center is staffed with trauma specialists 24 hours a day, seven days a week. Trauma surgeons, specialty nurses, anesthesiologists, radiologists, therapists, technicians and many other trauma team members are prepared for any emergency. This team collaborates with community hospitals throughout the region and emergency medical services professionals, including ARMC's Mobile Intensive Care Unit (MICU), to ensure prompt transportation of patients with critical and/or life-threatening injuries.

Community outreach and education is an important component of the program. The Harrah's Regional Trauma Center at ARMC promotes safety throughout the region, with a goal of preventing critical and fatal injuries.

# Healthy Schools

## Annual Healthy Schools Contest

Since 2005, AtlantiCare, through its *Healthy Schools, Healthy Children* initiative, has worked with local schools to build and sustain healthier school environments. AtlantiCare started out with six Atlantic County, New Jersey schools, and is now partnering with more than thirty. The *Healthy Schools, Healthy Children* initiative provides education, training, and resources to support schools in their efforts to increase opportunities for physical activity and nutrition education, improve the nutritional qualities of foods served, and to enhance the overall self esteem and body image of all school age students.

For the past two years, *Healthy Schools* contests have been held aimed at helping schools get healthier during the school year and rewarding them for doing so. In 2007, AtlantiCare awarded Brigantine Elementary School \$5,000 for being the healthiest school, according to contest requirements at the end of the 2006-2007 school year; the Fanny D. Rittenberg School in Egg Harbor City \$3,000 for being the most improved school and the Northfield Community School, in Northfield and Seaview Elementary School in Linwood \$500 honorable awards for marked improvement.

In 2008, AtlantiCare awarded \$5,000 to Northfield Community School for being the healthiest school and \$3,000 to the H. Ashton Marsh Elementary School for being the most improved. Schools receiving honorable mention awards of \$500 included Estell Manor School, Joyanne D. Miller School and E.H. Slaybaugh School.

### Students Recognized with Annual Celebration with the Surf

Students from the Fanny D. Rittenberg School in Egg Harbor City; the Ashton Marsh School in Absecon; the Miller School in Egg Harbor Township; the South Main Street School in Pleasantville; and the Ventnor Educational Community Complex all participated in games and activities at the picnic area of the Bernie Robbins Stadium as part of AtlantiCare's Healthy Schools Celebration. Certified fitness instructors from the AtlantiCare LifeCenter and 25 students from Egg Harbor Township High School lead students in the activities.

Healthier Children

# Heart Health Initiatives

## **Mainland, Atlantic City Campuses Receive Reaccreditation as Chest Pain Centers**

The Society of Chest Pain Centers (SCPC) granted AtlantiCare Regional Medical Center's (ARMC) Mainland and Atlantic City campuses full Cycle II accreditation as Chest Pain Centers in August 2007. Both received full Cycle I accreditation on August 18, 2004, becoming the 59th and 60th accredited Chest Pain Centers in the nation.

ARMC's Chest Pain Centers' protocol-driven and systematic approach to patient management allows nurses, physicians and other clinical staff to reduce time to treatment during the critical early stages of a heart attack, when treatments are most effective, and to better monitor patients when it is not clear whether they are having a coronary event. Such observation helps ensure that a patient is neither sent home too early nor needlessly admitted. With the rise of Chest Pain Centers came the need to establish standards designed to improve the continuity of care and quality of care provided to patients. The Society's accreditation process ensures centers meet or exceed quality-of-care measures in acute cardiac medicine.

## **Our State-Designated Stroke Centers Respond Quickly and Accurately**

Like a heart attack, a stroke requires immediate medical attention. "Saving brain" is critical to recovery. Early treatment can minimize damage, lessening the likelihood of severe disability. AtlantiCare offers clot-busting drugs and the area's most sophisticated technology—capable of taking multi-dimensional pictures of the brain, so procedures can be done not only quickly, but accurately. As a Primary Stroke Center, our Mainland Campus is staffed by a highly trained stroke team, ready to respond 24/7. As a Comprehensive Stroke Center, our Atlantic City Campus provides complete care to patients who experience the most complex strokes, which require specialized testing and advanced interventions.

*AtlantiCare's team takes first place organizing more than 550 walkers for the American Heart Association Heart Walk*

It's so comforting to have a  
Chest Pain Center so close.

### **Gambling Addiction Screenings**

For those with gambling addictions, admitting the addiction is the first step in the recovery process. Those addicted can suffer from social, psychological and financial hardships. AtlantiCare Behavioral Health annually offers free, confidential gambling addiction screenings during National Problem Gambling Awareness Week.

### **Diabetes Screenings for the Homeless**

AtlantiCare works with the homeless to ensure those with high blood sugar are treated and monitored. In 2008, AtlantiCare's Mission Health Center screened more than 40 homeless people during a Diabetes Day event at its facility in the Atlantic City Rescue Mission. AtlantiCare provided free eye exams, foot exams, and blood sugar screenings. The event was held in collaboration with the Diabetes Outreach Education System (DOES); Southern New Jersey Family Medical Centers, Inc.; the New Jersey Department of Health and Senior Services; and the Department of Human Service's Commission for the Blind and Visually Impaired.

# Community Involvement

The **National Spirit of Women Awards Program** is held each year to recognize and celebrate people who dedicate themselves to bettering their communities. Winners are selected in three categories; Healthcare Hero, Community Hero in Action and young Person Role Model. In 2006, the winners were Dr. Julianne Childs, Barbara Gates, and Christine Dronoy. The 2007 winners were Susan Fisher Brown, RN, Patricia Smith & Mindy Shemtov, and Amanda Feldman. The 2008 winners were Cigi Serrano, Denise Rounds, and Erika Ferguson.

In 2008, more than 450 people were educated by Dr. Anjeanette Brown and breast cancer survivor and activist Deanne Favre at **AtlantiCare Women's Health & Wellness Annual Breast Health Signature Event**. In 2007, more than 400 people attended when the speakers included author and journalist Jennifer Weiner, (pictured to the left with event attendees) and breast cancer researcher Etta D. Pisano, MD, FACR. In 2006, we had 350 attendees and the speakers were Dr. Julianne Childs and breast cancer survivor and humorist, Marcia Wallace.

The dinner lecture is one of the many ways AtlantiCare marks National Breast Cancer Awareness Month. The event, which has grown in attendance each year, includes free health screenings, chair massages, makeup demonstrations, door prizes and giveaways. A portion of the sales benefit the AtlantiCare Women's Health & Wellness Breast Health Program.

## **"Joints in Motion" Walk**

The Joint Institute at ARMC holds its annual walk in September at the AtlantiCare Health Park. Former patients who have had full knee, partial knee, and hip replacements at the Joint Institute at ARMC walk with family members, friends, and the doctors, nurses, physical therapists and other hospital staff who treated them. In 2006, the Joint Institute at ARMC earned Disease-Specific Care Certification from the Joint Commission on Accreditation of Healthcare Organizations (JCAHO). The JCAHO gave ARMC its Gold Seal of Approval™ for meeting stringent standards and providing the highest quality of care.

### **“Walk From Obesity”**

AtlantiCare's Center for Surgical Weight Loss hosts the walk every September at the AtlantiCare Health Park. “Walk from Obesity” is a national event committed to raising awareness and funds to improve the quality of life for the obese person. Proceeds help fund obesity research, increased education, improved awareness of effective treatments, elimination of size discrimination and disability caused by the life-threatening disease of obesity. The event takes place on the same date in cities across the nation.

### **Mobile Mammography**

The RNS Mobile Mammography Van makes breast cancer screenings easily accessible to women in Atlantic, Cape May and southern Ocean Counties. This custom-designed van, one of only two such units in New Jersey, features the latest low-dose mammography equipment, and is accredited by the American College of Radiology and the FDA.

This program is supported by the RNS Cancer and Heart Fund, the Susan G. Komen Breast Cancer Foundation Central and South Jersey Affiliate and the Ladies Invitational Bluefish Tournament.

### **Pavilion at the Park**

AtlantiCare invested \$2 million on the new Pavilion in the Park – a facility dedicated to women’s health issues and concerns – in the Spring of 2006. The 6,000 square foot Pavilion at the Park, located in the AtlantiCare Health Park in Egg Harbor Township, provides breast health, pelvic medicine, gynecologic health, and well-woman care services all in one location. In keeping with its commitment to dedicate one percent of all new building costs to the healing arts, AtlantiCare commissioned artwork from several local artists for the Pavilion.

### **Celebration of Life Dedication Walk**

AtlantiCare Hospice established a “Celebration of Life Dedication Walk” at ARMC’s Mainland Campus to give the community, family, and friends the opportunity to remember and celebrate the lives of loved ones. Personalized engraved bricks and tiles are permanently displayed along the path.

### **HealthRite Opened in Somers Point**

AtlantiCare, in collaboration with the Wakefern Food Corporation, opened HealthRite, the first in-store health center in the south-eastern New Jersey region, at the ShopRite in Somers Point, NJ in August 2006. AtlantiCare HealthRite treats minor illnesses for anyone 18 months and older who cannot get to their primary care provider or who does not have one.

# Investing in the Community

*Coming in 2009: world-class cancer diagnosis and treatment.*

## **AtlantiCare's New Cancer Center Broke Ground in 2008**

AtlantiCare's Cancer Care Institute, a Fox Chase Cancer Center Partner, plans to expand the world-class cancer diagnosis and treatment it provides. It will do so in a comfortable, patient/family-centered outpatient environment. AtlantiCare held a symbolic groundbreaking in April 2008 for its new Cancer Center. The \$32,539,000 facility is expected to be completed in summer 2009.

The two-story, 39,600-square-foot facility will be in the AtlantiCare Health Park. There will be 12 chemotherapy infusion bays (eight will be private). Radiation therapy will include linear accelerator treatment, including external-beam radiation treatment, intensity-modulated radiation therapy (IMRT), image-guided radiation therapy (IGRT), stereotactic radiosurgery (SRS) and electronic brachytherapy. Diagnostic services will include computed tomography (CT) simulation scanning and positive emission tomography (PET) scanning – a form of nuclear medicine imaging.

AtlantiCare's Cancer Center will offer this advanced technology in a setting that maximizes patient comfort and privacy. In keeping with a natural theme, AtlantiCare is taking an environmentally friendly building approach. It is constructing the Cancer Center with a goal of achieving the U.S. Green Building Council's LEED® (Leadership in Energy and Environmental Design) certification.

# Healing Arts

It takes more than medicine to create a healthy community. Serene art pieces, calming colors, natural light and soothing sounds can soften the high-tech healthcare setting and support the healing process.

That's why AtlantiCare established a Healing Arts Program. Numerous studies have shown that clinical outcomes can be enhanced by incorporating the healing arts in the clinical environment.

**Lily Creek** *David Alstead, artist*

In 2005, AtlantiCare incorporated the healing arts into the Center for Childbirth and Emergency Department at ARMC's Mainland Campus, where there are more than 200 pieces of art. Additional programs have been added at the George F. Lynn Harmony Pavilion at ARMC's Atlantic City Campus, and an "Ocean Reflection" commissioned piece of art for the \$128 million expansion at ARMC's City Campus in Atlantic City. Shown at right, the work was created and installed on site by Millville artist Liz Nicklus.

In addition to creating a relaxing visual and auditory experience for patients and visitors, the Healing Arts Program gives local artists and opportunity to share their unique talents and cultures. The program demonstrates that not only is southern New Jersey home to world-class health care, it is home to world-class artists as well.

Through the Healing Arts Program, donors have the opportunity to sponsor art as an option for charitable giving. A Healing Arts Committee, which includes many community representatives from museums and other cultural venues takes an active role in selecting the artists for the program. Their participation has a positive impact on the health and wellbeing of the community.

## MISSION

We deliver health and healing to all people through trusting relationships.

## VISION

AtlantiCare builds healthy communities.

---

## VALUES

**Integrity** - Our actions and decisions consistently reflect the highest ethical standards. We operate on the basis of openness, to nurture an environment of honesty and trust.

**Respect** - We treat each individual with dignity and compassion; encourage creativity and assist one another to achieve our fullest potential. We believe that each individual is equally important in a unique way.

**Safety** - Safety of patients and staff is our top priority. We continue to integrate new learning in quality improvement and safety management to all aspects of our care environment.

**Service** - We build our customer commitments upon the philosophy that quality and service will improve over time using a process of continuous quality improvement. We measure our performance against customers' standards and strive to exceed their expectations.

**Teamwork** - We combine our efforts with the efforts of others to achieve the greatest success. Collaboration and open communication are essential to our relationships.
